

Sharadchandra Arts, Commerce & Science College Naigaon (Bz.)

NAAC - Criteria VII : Institutional Values and Best Practices

Implementation of the Best Practices

Academic Year: 2021-22

1. Title of the Practices : “Women Health Awareness Campaign”

2. Objectives of the Practices :

- To create health awareness among women.
- Changing the traditional attitude of women towards their own health.
- To reflect in the masses how important women’s health is to the entire family.
- Enhancing self-esteem, confidence and self-respect among women.
- To highlight the role of higher education in eradicating superstitions prevalent in Indian society.

3. The Context :

Today's twenty-first century is a sophisticated scientific age with a computerized ultra-fast lifestyle. Comparing history and present, the journey of human life is from underdevelopment to overdevelopment and there is a continuum. But in this rapid journey of all-round development, we have not come out of the traditional rusty mentality while taking along the Indian woman who occupies almost half the place in this social system. So Indian women are facing many problems. Especially since the mindset of the majority of Indian women is still one of sacrifice and surrender, they unforgivably neglect their health, especially while performing family duties. As a result these women have to suffer serious health consequences. Keeping in view **NAAC Criterion 7: Institutional**

Values and Best Practices of Sharadchandra College. Under this "**Women Health Awareness Campaign**" is being implemented in association with Sharadchandra College, Naigaon (Bz.) and Government Rural Hospital Naigaon (Bz.). This campaign lasted for three consecutive years i.e. academic years 2021-22, 2022-23 and 2023-24. It is being implemented for the Through this campaign, the health of women in Naigaon and the surrounding area will be examined by expert doctors and proper treatment and in-depth guidance and education will be given regarding health.

4. The Practices

February 13, the birth anniversary of Mrs. Sarojini Sarojini Naidu, a woman freedom fighter in the Indian freedom movement, is celebrated with great enthusiasm as National Women's Day by organizing various social activities across India. On the occasion of this day, a program "Mahila Arogya Jagruti Abhiyan" has been started from the academic year 2021-22 in association with Sharadchandra College and Government Rural Hospital, Naigaon (Ba). Medical Superintendent of Government Rural Hospital Dr. P. N. Pohre, through a request form on February 9, 2022, placed the nature of this program before him and took his time and approval in connection with the said health camp planning. He himself and two other doctors The team of NCD and RCD along with Dr. Pandhare and Dr. Kirti Kale have come for medical examination and informed that a total of eight types of examinations will be conducted. This program has been organized on 14 February 2022 at 11:00 am on Monday at Annabhau Sathe Auditorium, Mahatma Phule Colony. Principal in charge of the college Dr. K. Haribabu presided over the program and the Secretary of the organization Hon'ble Shri. Ravindra Chavan was present as the Chief Guest and Inaugural. As most of the women in the area earn their living by daily wage labor, there is not much awareness among these women in terms of health. But still the women of the area participated in this program in considerable numbers. President of the program Principal Dr. K. Haribabu gave a detailed introduction to the program while the

secretary of the organization Shri. Ravindra Chavan also explained the unique importance of health in human life through his mind. After that the Medical Superintendent of Rural Hospital Naigaon Dr. P.N. Pohre gave extensive guidance on women's health after which the NCD and RCD team took blood samples from the women. In this, blood test of 24 women was done.

Constraints / Limitations :

Especially the women section of Naigaon area for whom this program was held in Rabin did not get the expected participatory response. There was a belief in the women's section that we were testing his blood for Covid 19. Therefore, women were avoiding coming to this program as much as possible.

5. Evidence of Success:

Various photographs taken during the event.

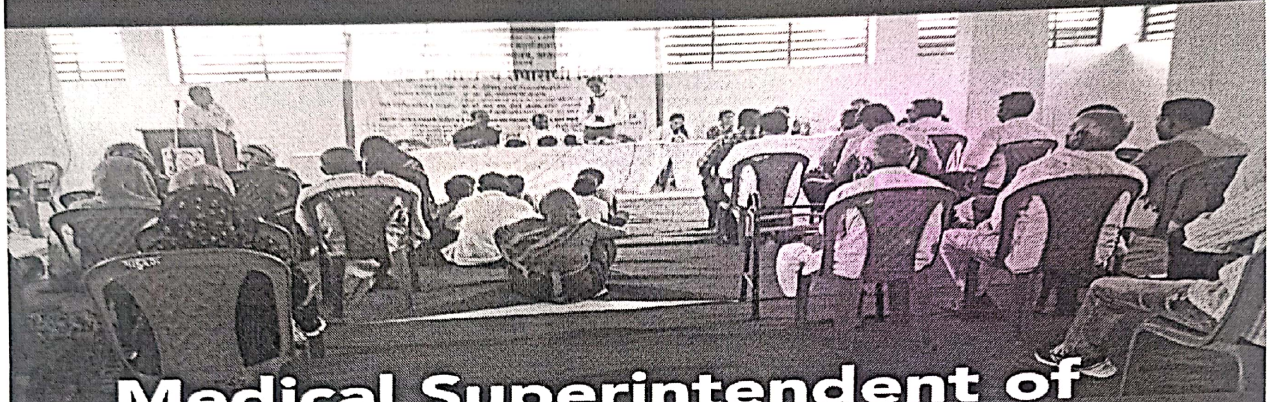

Thank you....!!
